## **Mind Reader Comes to RCC Edison**

World-renowned mentalist, Flavian, a man who's graced stages from Las Vegas to Atlantic City and stunned crowds everywhere in between, recently showcased his skills at Roosevelt Care Center at Edison.

During a series of hour-long shows, Flavian, made several appearances at Roosevelt Care Center at Edison, where he dazzled with his uncanny abilities to “Journey to the Center of Your Mind.”

On March 31, in front of a packed day room and with an astounding rate of accuracy, Flavian rattled off dates, numbers, names and even inanimate objects that residents and staff had either written down or verbally communicated.

But in one of his more impressive feats, Flavian asked individuals at random to each write down a number, which combined created a phone number.

The master mentalist eventually unveiled matching figures that had been pre-written and enclosed in an envelope, before one single digit was ever uttered.
