

Staff Development Day

Roosevelt Care Center at Old Bridge held one of its periodical staff development days Aug. 20.

Among the scattered entourage of tables in the multi-purpose room, employees were encouraged to visit the respective departments represented and to peruse the relevant information and instruction displayed by each.

Some of the topics covered included:

- Alzheimer’s and dementia care
- The Sigma Shield Wandering System
- Wheelchair maintenance
- Back care
- Injury prevention
- HIPAA
- Alarms
- Emergency Procedures
- Recreation
- Residents’ rights
- Hydration
- Hand washing

“These gatherings are an opportunity for our staff to get a refresher course on topics discussed in our orientation, in addition to some helpful tips that will encourage safety throughout our building,” said Roosevelt Care Center at Old Bridge Administrator Alan Fialka. “Here at Roosevelt we stress not only reviewing but building upon our knowledge.”
